

Shelves

Standard Shelves:

- (A) Shelves are constructed of 14 gauge cold rolled steel.
- (B) Shelf support brackets are constructed of 12 gauge cold rolled steel.
- (C) All shelves are easily removable and adjustable.
- (D) Each shelf is reinforced and pre-punched to enable mounting of modem shelves, keyboard trays and task lights. A center support is standard on 48", 60" and 72" wide shelves.
- (E) Maximum weight recommendation is **800 lbs.**
- (F) 48", 60", 72" VEC frames will accommodate either full width or half width shelves.
