

Horizontal Cable Management

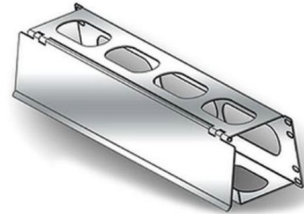

DLHS-19-XCM

This unit is mounted so it sits 1.5" behind the mounting rails to bring the cables to the back of the cabinet.

DLHS-19-XCON

This cable manager mounts flush to the mounting rails allowing easy access to all port openings. Comes in 1u, 2u, 3u and 4u.

DLPF-C-BX-XU

This Horizontal Cable Manager with built-in storage for excessive cable or fiber features built-in tie-wrap slots is 12" deep and 5 1/4" high.

DLHCG19-1 PQ

The No U Cable Manager attaches to the front of a patch panel and does not take up U space. Just loosen the screw on the patch panel and slide cable management over the head of the screw.

Cable Rings are a quick and easy solution for organizing cables. The DLHCGV also allows runs of cables vertically and comes in different sizes.
