

DL Series

The DL Series comes with 2 pairs of square hole Mounting Rails with a bag of 40 M6 Cage Nuts and Screws. Overhead Cable Management is a built in feature and allows cables to access the enclosure. The top can be sealed off with Filler Panels or left open depending upon the cooling solution that has been selected.

Fiber cables can be installed in the built in Cable Tray. Power and data sit in the optional Overhead Tray that can be installed using the DPXOVH-Riser Channel System, see Top Option Page.6

The bottom of the Enclosure is open for raised floor cooling, but can be closed depending upon the cooling solution requirements.
