

Storage Solutions

Filling Drawers:

File pedestals are solid welded 16 gauge cold rolled steel construction. Drawers are also a solid welded construction featuring fully extendable positive stop slides with a 100lb capacity per drawer.

Drawers can be removed from their sliders using the lift-out disconnect release punched into each slider module. Configurations include File/File, Box/File, Box/Box/File, and others. Consult with your dealer for details.

PART #	DRAWERS	CAMLOCKS
F2	2	NO
F2C	2	YES
F3	3	NO
F3C	3	YES

Lockable Storage Cabinet:

Our high quality Lockable Storage units are excellent for securing sensitive documents or restricting access to materials at a workstation. Designed with a "Slide-n-Hide" lockable front door either solid steel or Plexiglas (PG).
